Hi Joe,

Thanks for all the information. I'd like to suggest we set up a call to discuss. I think Sisay can certainly help which will ensure that we're managing the TAG grants consistently across the Region.

Ex. 5 - Deliberative Process

Thanks, Libby

Hi, Libby:

Other than for the Libby sites, we have 5 TAG grants in Montana: Arrowhead Foundation (Anaconda Smelter), Citizens Technical Environmental Committee (Silver Bow/Butte and Montana Pole sites), CFR Technical Assistance Committee (Milltown/Clark Fork site), Black Eagle Civic Club (ACM Smelter & Refinery), and Superior Technical Assistance Committee (Flat Creek/IMM site). We are trying to get the CFRTAC TAG closed out (still waiting for closeout financial information from CFRTAC since last September). On the remaining four, Lindsay Seeger is the grants specialist. The project officers for the other four are:

CTEC	Sara Sparks
Black Eagle CC	Charlie Coleman
Arrowhead	Charlie Coleman
STAC	Kris Edwards

Kris is retiring and Sara no longer works on the Butte site, so the timing is probably good for shifting the Montana TAGs PO responsibility to Sisay, if that is what you are thinking. I know Charlie would probably be happy to let someone else take that responsibility for his TAG grants, too.

I think just including me and Robert would be enough for the Montana Office for this discussion. My Outlook calendar is up to date for scheduling meetings. Please let me know if you have any questions or if you need additional information.

Thank you,

Joe

Subject: Fwd: TAG Program Call (Bimonthly)

Hi Joe,

Would like to talk to you about coordination on managing the TAG grants now that there is no one point of contact in Montana. There have been a few instances where we are taking an approach with our TAGs that could have an impact on the Montana TAGs.

We also have information requests that come from the National Coordinators and are not in a position to speak to the Montana TAGs and are not clear on who to direct them to.

I'll send an invite out for a meeting. Let me know who all should be a part of this discussion on the Montana office.

Thanks, Libby

Subject: RE: TAG Program Call (Bimonthly)

The Libby Asbestos new grant was awarded on 09/15/2015, and the project has an end date of 09/30/2016.

The Montana grants are managed by Regional Program Managers.

Could you send me the date in 2015 when the additional \$50K was awarded and the new end date for the period of performance?

Do you know who manages the grants in Montana?

Thanks,

Freya

Yes, the TAG information for region 8 is current. The only thing I see missing is a grant that was added to Libby Asbestos site in 2015 for an additional \$50,000. Besides that all the information is up to date.

I don't manage the grants in Montana except for the Libby Asbestos site, so I can't say if the information for sites in that state are up to date.

Best regards,

Hi Cis.

Were you able to take a look at the TAG data and determine if any updates needed to be made? The TAG data is linked to another larger project that I'm working on to show the depth of support being provided at Superfund sites around the US. So, I will need everyone's data updated before I can move forward on my other project.

Thanks,

Freya

Hi Freya,

I'm at Superfund 101 training all day, so I will not be able to make the call. I will look at the

TAG data and update on any new information that is missing on the document for Region 8.

Best regards,

From: Margand, Freya

Subject: RE: TAG Program Call (Bimonthly)

Hi everyone.

We have our regular bimonthly TAG call today (the January call was really the December call rescheduled). The call in information is as follows:

• 2:30 – 3:30 pm Eastern (1:30-2:30 pm Central; 12:30-1:30pm Mountain; 11:30 am – 12:30pm Pacific)

• Our call in number is **Ex. 6 - Personal Privacy**

I don't have much for the agenda, but I'm hoping that we can take the time to talk about any issues that have come up over the past month or so. Also I'd like to get a status on where everyone is with updating their TAG data so it is accurate through the end of January (Edie Findeis of EMS emailed the data after the last call).

Here are the notes from our January call:

<< File: 2016-01-28_revised.doc >>

Thanks,

Freya
